**SUBJECT: REMEDIAL INSTRUCTION**

The Board of Education, in its commitment to providing an educational program which meets individual student needs, recognizes the importance of remedial instruction. The Board therefore directs the Superintendent of Schools to oversee the development, maintenance and evaluation of a remedial instruction program. The program will specifically address the needs of students who must be provided remedial instruction as a result of test scores on state-required tests (in compliance with the Regulations of the Commissioner), as well as the needs of all students who are having difficulty in any subject.

To determine student eligibility for such a program, the Superintendent or his/her designee shall design appropriate student assessment procedures. Assessment shall be a collaborative effort involving parents, regular classroom teachers, guidance and special education personnel. Referrals may be initiated by Building Principals and/or classroom teachers, based in part on low student scores on state competency tests, but also taking into consideration a broad range of student needs.

Individual assessments shall attempt to gauge a student's need for emotional and/or physical health services, and seek to determine whether his or her academic performance has a basis in a physical or emotional handicapping condition. Student learning style and level of proficiency in speaking, reading and writing English must also be assessed. If the latter is a factor, instruction in English as a second language and/or bilingual instruction shall be provided prior to any determination regarding the need for further specialized instruction. All transfer students and new entrants shall be screened to determine their need for remedial instruction.

If a student is eligible for remedial instruction, he or she shall be assigned to remedial instruction with appropriate personnel. Inservice training in remedial methods and programs shall be provided to all teachers periodically.

The actual Instruction shall vary in approach. Meetings with trained faculty shall be scheduled during the school day, but all faculty members should be available after school hours to provide a period of help, instruction and make-up work.\* Teachers shall coordinate remedial instruction with the student's regular classwork and homework load. Teachers are encouraged to involve parents, community volunteers, teacher aides/assistants and student peers whenever possible.

All remedial Instruction programs shall be evaluated yearly. Evaluation shall be based on objective student outcomes, including test scores, classroom performance, and student behavior. When seeking to improve existing programs, the Superintendent or his or her designee shall research effective program models used by other districts in New York State and nationally. Such models shall be adapted to district resources and needs. All program outlines shall be submitted to the Board for prior approval.

However, no filtering technology can guarantee that staff and students will be prevented from accessing all inappropriate locations. Proper safety procedures, as deemed appropriate by the applicable administrator/program supervisor, will be provided to ensure compliance with the CIPA.

In addition to the use of technology protection measures, the monitoring of online activities and access by minors to inappropriate matter on the Internet and World Wide Web *may* include, but shall not be limited to, the following guidelines:

- a) Ensuring the presence of a teacher and/or other appropriate District personnel when students are accessing the Internet including, but not limited to, the supervision of minors when using electronic mail, chat rooms, instant messaging and other forms of direct electronic communications. As determined by the appropriate building administrator, the use of e-mail, chat rooms, as well as social networking Web sites, may be blocked as deemed necessary to ensure the safety of such students;
- b) Monitoring logs of access in order to keep track of the web sites visited by students as a measure to restrict access to materials harmful to minors;
- c) In compliance with this Internet Safety Policy as well as the District's Acceptable Use Policy, unauthorized access (including so-called "hacking") and other unlawful activities by minors are prohibited by the District; and student violations of such policies may result in disciplinary action; and

### **SUBJECT: RELIGIOUS EXPRESSION IN THE INSTRUCTIONAL PROGRAM**

The Board of Education acknowledges the importance of religion to the understanding of society and the richness of the human experience. In approaching the teaching about religion in the school, the District will be guided by three concepts when making decisions about the appropriateness of activities for inclusion in the school program: the activity should have a secular purpose; the activity should neither advance nor inhibit religion; and the activity must not foster an excessive entanglement of "government" with religion.

Nurturing the development of knowledge and respect for the rights of all cultural and religious groups is a continuing goal of the School District. Students, faculty and administration are reminded of the pluralism of religious beliefs and are urged to be conscious of and respect the sensitivity of others.

Opportunities to learn about cultural and religious traditions should be provided within the framework of the curriculum. Information about religious and cultural holidays and traditions focusing on how and when they are celebrated, their origins and histories should be part of this instruction. This educational opportunity should be handled with great care, sensitivity and respect for the feelings and beliefs of individuals.

An environment should be created and encouraged where students of various ethnic backgrounds feel comfortable in sharing comments about their religious and cultural traditions. No student should be singled out to share or participate in such discussions solely on the basis of that student's identification with the cultural/religious heritage being addressed. A student's preference not to share or participate in such discussions should be honored and respected without penalty.

#### **School Activities Related to Religious Holidays or Themes**

School activities related to the teaching about religious holidays or themes must be consistent with, representative of, and congruent with the District's curriculum.

In planning school activities related to the teaching about religious holidays or themes, special effort must be made to ensure that the activity is not devotional and that students of all faiths can join without feeling they are betraying their own beliefs.

In planning school activities related to the teaching about religious holidays or themes, age appropriate activities are encouraged within the framework of the curriculum. Teaching about religious and cultural holidays may include such special activities as parties and special foods, if they reinforce educational goals.
